McGill University Archives

McGill University, Montreal Canada

MG4238
William Moser Fonds
Accession 2004-0014

This is a guide to one of the collections held by the McGill University Archives, McGill University. Visit the McGill University Archives homepage (http://www.mcgill.ca/archives) for more information

Biographical Sketch of Dr. William Moser
Department of Mathematics and Statistics
McGill University

Dr. Moser is a respected member of the Canadian mathematical community, who has served as editor-in-chief of the Canadian Mathematical Bulletin and as president of the Canadian Mathematical Society. He took his retirement in 1997 and was immediately appointed Professor Emeritus by McGill University. The Canadian Mathematical Society granted him the 2003 Distinguished Service Award.

William Oscar Jules Moser was born in 1927 in Winnipeg, MB, Canada. He married Beryl Rita Pearlman in 1953 and together they have 3 children: Marla, Lionel and Paula.

Moser's education began at the University of Manitoba where he obtained a Bachelor of Science (honours) degree (1949), and continued to the University of Minnesota where he was granted his Master's in 1951. Under the advisory of Donald Coxeter, Moser completed his PhD in mathematics at the University of Toronto in 1957.

Moser's academic career began at the University of Saskatchewan where he was an Associate Professor from 1956-1960. From there, he moved to the University of Manitoba where he was also an Associate Professor from 1959-1964. His final placement was at McGill University in 1964 (Professor from 1966-) where he stayed until his retirement in 1997.

During the years, Dr. Moser and his family spent time in England and Paris while on sabbatical leaves from McGill, but Montreal remains their home.

Some of his close professional friendships include: Donald Coxeter, Paul Erdős, Sy Schuster, etc.

His most famous publication was "Generators and relations for discrete groups, 1957" with Donald Coxeter. This work has garnered attention for its longevity and importance as it is currently in its 8th edition. Dr. Moser is still publishing books in the field of mathematics with fellow mathematicians.

It is important to note that Prof. Moser's main contribution to the mathematical world is within the field of geometry.

"Who's Who in America" 1996.

Scope and Content:
The Fonds consist of both personal and professional correspondence relating to his mathematical career. Colleagues and friends from the mathematical profession have provided letters (incoming/outgoing), publications, newspaper and magazine clippings, and CV's over the course of 66 years. Correspondence comes from H.S.M. Coxeter, Donald O.Hebb, Paul Erdös, Béla Bollobás, John Conway, Janos Komlos, J.A.H. Hunter, and other notables within the field of mathematics. In all, they comprise of 72 cm of textual records, as well as 7 photographs depicting family and friends of Dr. Moser's and a painting; includes one audiotape.

Dates:
1935-2004: an attempt has been made to sort file contents chronologically

Immediate Source of Acquisition:
Dr. William Moser during Spring 2004

Finding Aids: Attached file listing

Boxes 1 - 5

M.G. 4238
Dr. William Moser Fonds

Accession 04-014
MG 4238

BOX 1:

Coxeter binder and additional files: 1970- 2002
One 2" binder filled with Coxeter/Moser correspondence. Accessioned by Shannon Hodge in April 2004, which is why it is a part of a separate accession from the rest of the folders. This binder was brought first to the McGill University Archives, prior to the remainder of the material.
1970 – 2002

File 00158
McNamee, John: The file consists of correspondence and obituary notices and eulogies of John McNamee.

File 00159
Jeffrey, Ralph L.: The file consists of correspondence, obituary notices, and eulogies of Ralph L. Jeffrey; also included, thank you letters from his widow.

File 00160
Williams, W.L.G.: The file consists of publications, obituary notices, and remembrances of Williams.

Accession 04-166
MG 4238

BOX 2:

File 00001
Anderson, William: The file consists of a letter from 2002 concerning the death of Anderson's wife. Anderson is a professor of mathematics at McGill University.

File 00002
Avital, Shmuel: The file consists of two letters from mathematician, Shmuel Avital of Israel relating to the profession of mathematics.

File 00003
Bass, A. Burton: The file consists of personal correspondence as well as a copy of the *Dalhousie Law Journal*, May 1979. Burton is a retired law professor.

File 00004
Beach, Earl: The file consists mainly personal correspondence, Christmas notes, reflections on a trip to Russia and a letter from former McGill Principal, Donald O. Hebb, cc: to Earl Beach.

File 00005
Barbeau, Ed: The file consists of correspondence from John Friedlander, regarding Ed Barbeau. Included are two original pages from the *University of Toronto Alumni Magazine*.

File 00006
Billiard Club: The file consists of various items about the McGill Faculty Billiard Club: instructions, a one-act play, member certificates and other miscellaneous items. The McGill Faculty Billiard Club ran from 1970-1990.

File 00007
Beatty, Samuel: The file consists of personal correspondence from Samuel Beatty and his family. Beatty was a Chancellor of the University of Toronto.

File 00008
Bell, Robert: The file contains one thank you letter from Principal Bell; includes a handwritten notation [by Moser] in the [Greek] language.

File 00009
Berzsenyi, George: The file consists of one letter from Berzsenyi of Lamar University, Texas regarding a request to receive an article on geometry written by Moser.

File 00010
Bezdek, Karoly: The file consists of correspondence with Andras Bezdek regarding the possible professorial appointment of Dr. Karoly Bezdek; includes letters of referral, publication list of Bezdek's and a curriculum vitae. Dr. Bezdek is a mathematician from Europe.

File 00011
Bollobás, Béla: The file consists of one letter from Béla Bollabas, fellow professor at the University of Cambridge.

File 00012
Brown, William G.: The file consists of memorandums, postcards, poetry and correspondence of W.G. "Will" Brown. Brown is professor of mathematics at McGill University.

File 00013
Campbell, Harvey: The file consists of correspondence, including the "Examination of Master's Thesis" report of H. Campbell, by Dr. Moser.

File 00014
Ceccherini, Pier Vittorio: The file consists of postcards, and personal letters regarding the Ceccherini/Silberstein family.

File 00015
Chen, William: The file consists of printouts from the website of William Chen.

File 00016
Chvatal, Vasek: The file consists of postcards, cross drawings, articles by Vaclav Chvatal, correspondence of Vasek Chvatal and math problems (of Moser's) solved by Chvatal.

File 00017
Cohen, David: The file consists of correspondence with Dr. David Cohen.

File 00018
Cohen, Marty: The file consists of one letter from Prof. Cohen thanking Moser for being a guest lecturer at the "Friday Evening Group".

File 00019
Coxeter Papers: The file consists of papers related to the death of Donald Coxeter, in the form of articles on Coxeter's contribution to the Mathematic world, obituary notices from various publications, program booklets from the International Congress of Mathematics (1974 & 1977), and publications relating to Coxeter's work, dated 1938-2003. **Note: there are 4 separate files for this file title. Includes one photo of a painting. See Appendix A for publication listing.**

File 00020
Conway, John: The file consists of correspondence from Professor John Conway of the University of Cambridge; two copies of the Science College Public Lecture Series by John Conway, Princeton University is also included.

File 00021
Dawson, Sandy: The file consists of one letter from A.J. (Sandy) Conway of Simon Fraser University regarding the success of the Donald Coxeter tribute dinner.

File 00022
Civkin, Sidney: The file consists of unsigned correspondence regarding the professional life of Civkin.

File 00023
Zaremba, Stanislaw Krystyn: The file consists of a curriculum vitae of S.K. Zaremba regarding a possible professorship at McGill University in the Department of Mathematics. Also includes one letter from D. A. Golden regarding Dr. Dirac (appears to have no relevance to Zaremba).

File 00024
Erdos, Paul: The file consists of correspondence, postcards, newspaper clippings, obituaries and book reviews by and about Paul Erdös, Mathematician and friend of Dr. Moser.

File 00025
Escher, M.C.: The file consists of an article and advertisement for the works of M.C. Escher. No date supplied within the items. Century certain, [19-].

File 00026
Fejes-Tóth, László: The file consists of handwritten letters by Fejes-Tóth of Hungary regarding the field of geometry and subsequent visits to Montreal.

File 00027
Fenson, Melvin: The file consists of an obituary notice of Melvin Fenson, first cousin of Dr. Moser's. Also includes a newspaper article and pamphlet by Fenson.

File 00028
Fichaud, Ray: The file consists of correspondence from the CBC and related news articles about the biggest and oldest organism found; one of them is an article written by Natalie Angier.

File 00029
Fisher, Chris: The file consists of one letter from Fisher solving a mathematical problem (of Moser's?).

File 00030
Flanders, Harvey: The file consists of personal correspondence from Dr. Harley Flanders on such subjects as limericks, and the death of Dr. Moser's brother, Leo.

File 00031
Graham, Ron: The file consists of one letter regarding Graham's solving of a math problem.

File 00032
Greenwood, Robert E.: The file consists of correspondence and math problems/solutions by Robert E. Greenwood, Department of Mathematics at the University of Texas at Austin. Also includes a condolence letter to Mrs. Eva Moser, widow of Leo Moser (Dr. William Moser's brother).

File 00033
Furedi, Z.: The file consists of a curriculum vitae and a list of publications by Z. Furedi. (Duplicates of each are included).

File 00034
Gardner, Martin: The file consists of one letter from Martin Gardner that mentions Leo Moser and a collection of his papers as edited by Dr. William Moser.

File 00035
Gelbaum, Bernard: The file consists of correspondence and newspaper articles by/about Bernard Gelbaum. Newspaper articles come from SUNY newspaper on the controversial decisions of Gelbaum.

File 00036
Graves, Ross: The file consists of correspondence and Christmas cards spanning 31 years (1971-2002). Reveals personal friendship with the Moser's since 1951.

File 00037
Guy, Richard K.: The file consists of correspondence from Richard K. Guy, Department of Mathematics at the University of Cambridge regarding colleagues and a mention of the death of Leo Moser, Dr. William Moser's brother.

File 00038
Harborth, H.: The file consists of postcards from H. Harborth (postcards depict Richard Dedekind, Mathematician).

File 00039
Hausner, Melvin: The file consists of one letter from Melvin Hausner depicting math equations.

File 00040
Harnick, Victor: The file consists of correspondence from Harnick (Dept. of Mathematics, McGill University) ; relating to mathematics as well as his personal life.

File 00041
Hayes, John: The file consists of correspondence (postcards and letters) of John Hayes; personal in nature.

File 00042
Hebb, Donald O.: The file consists of miscellaneous material on Donald O. Hebb, including letters, newspaper articles, dedications and remembrances.

File 00043
Hill, Anthony: The file consists of correspondence from Anthony Hill from the Department of Mathematics in the University of College London. Personal in nature; spans 30+ years. Also includes journals and pamphlets on the field of mathematics. Drawings by A. Hill.

File 00044
Hitschfeld: The file consists of a thank you letter from Walter Hitschfeld.

File 00045
Hoggatt: The file consists of correspondence from Vern Hoggatt incorporating math equations and well wishes to Dr. Moser's family. Letterhead reads "The Fibonacci Quarterly".

File 00046
Honsberger: The file consists of a thank you letter from Ross Honsberger.

File 00047
Hunter, J.A.H.: The file consists of correspondence from J.A.H. Hunter of "Fun with Figures" regarding past Mathematics Olympiads.

File 00048
Kakutani, Shizuo: The file consists of a thank you letter from the Kakutani's (of Hamden, CT) for the hospitality provided by the Moser's during Expo '67.

File 00049
Keeping, E.S.: The file consists of a publication by E.S. Keeping called "A Short History of the Mathematics Department".

File 00050
Klamkin, Murray S.: The file consists of a personal letter and book reviews by Murray S. Klamkin.

File 00051
Klee, Victor: The file consists of correspondence from and to Victor Klee on professional matters relating to the field of mathematics.

File 00052
Koenen, William: The file consists of correspondence from William Koenen of both a personal nature and relating to the field of mathematics.

File 00053
Blum, Richard and Martha: The file consists of personal correspondence from Richard and Martha Blum (and daughter, Irene); includes birthday cards.

File 00054
Komlos, Janos: The file consists of correspondence from Janos Komlos, Department of Mathematics, Rutgers University. Includes birthday greetings to Dr. Moser, appointments of Komlos' to various universities, including McGill, and leaves of absence from the Hungarian Academy of Science.

File 00055
Konhauser, Joe: The file consists of correspondence from Joe Konhauser spanning 20 years; personal and professional in nature.

File 00056
Kreweras, Germain: The file consists of personal correspondence from Germain Kreweras of Paris, France. Includes one photo. PHOTO: My great-grandson Thomas Jouzcin born May 7, 1993-photo taken February 2, 1994.

File 00057
L'Abbe, Maurice: The file consists of one letter composed in French; personal.

File 00058
Labute, Paul: The file consists of reprints of two mathematical articles by Paul Labute.

File 00059
Lambek, Jim: The file consists of correspondence from Jim Lambek of Université Paris.

File 00060
Levin, Archie: The file consists of one "promissory note" (written in jest) from Archie Levin to Dr. Moser.

File 00061
Lindner, Curt: The file consists of personal correspondence from Curt Lindner and family. Includes two photos. PHOTO: Greeting from Auburn! Best wishes for 2003 Curt, Ann. PHOTO: "Greetings from Auburn. All the best in '97, Curt."

File 00062
Linis, Viktors: The file consists of a condolence letter from Viktors Linis on the death of Dr. Moser's brother, Leo.

File 00063
Lloyd, Keith: The file consists of letters containing mathematical problems and solutions from Keith Lloyd, Department of Mathematics, University of Southampton.

File 00064
EnRoute: The file consists of an article called "Destination Guide London" from "EnRoute" magazine, June 1995.

File 00065
Lorch, Lee: The file consists of correspondence from Lee Lorch, Department of Mathematics at York University; also includes an article called "Lee Lorch at Fisk: a Tribute" by Vivienne Mayes.

File 00066
MacKinnon, Nick: The file consists of one letter from Nick MacKinnon, Editor of the Mathematical Gazette, Winchester College, Winchester, England.

File 00067
MacIntosh, F.C.: The file consists of one letter from Dr. F.C. MacIntosh of McGill University

File 00068
Olfman, Dan and Sharna: The file consists of a thank you card from Sharna and Dan Olfman.

File 00069
R. Eric O'Connor Memorial Fund: The file consists of correspondence from the Thomas More Institute for Adult Education concerning possible donations (by the Canadian Mathematical Society) to the Father *O'Connor* Memorial Fund—correspondence mainly from Charlotte Tansey. O'Connor was another mathematician and was the founder of the Canadian Mathematical Congress in 1945.

File 00070
Pach, János: The file consists of various items on the career and education of Professor Janos Pach: publications, curriculum vitae and reference letters.
Note: There are two files under this file #; the second is a CLOSED file.

File 00071
Perlmutter, Syd and Mary: The file consists of correspondence and from Syd and Mary Perlmutter of Toronto. Also includes a copy of "The 1998 TARA Awards" publication from Ryerson University.

File 00072
Pollack, Richard A.: The file consists of one letter from State University of New York (to Dr. Moser) asking for a reference of Dr. Richard A. Pollack.

File 00073
Ribenboim, Paulo: The file consists of personal correspondence from Paulo Ribenboim and family of Rome, Italy.

File 00074
Robinson, Gilbert: The file consists of one letter from the *Canadian Journal of Mathematics*; personal.

File 00075
Rogers, C.A.: The file consists of correspondence regarding Moser's sabbatical; includes details of a trip with his family and articles he has researched.

File 00076
Rosen, Paula: The file consists of one poem written by Rosen as a thank you to Dr. Moser for tutoring her in math.

File 00077
Rosenblatt, Murray: The file consists of personal correspondence from Murray Rosenblatt, math colleague from the University of California, San Diego.

File 00078
Oseasohn Family: The file consists of personal correspondence such as letters and cards from the Oseasohn's (San Antonio, TX); also includes two photos.

File 00079
Schuster, Seymour: The file consists of personal and professional correspondence from Seymour Schuster and family (very close friends of the Moser's); includes letters, greeting cards and reprints of articles written by Schuster.

File 00080
Springer-Verlag: 1957-1996; [Springer-Verlag is a publisher in headquartered in Berlin]; The file consists of "proofs" depicting math problems and solutions for future publication of textbooks; letters to Moser and Coxeter regarding their completion of mathematic textbooks (some in written in German); royalty statements (some written in German) and accounting slips. Much of the correspondence relates to the "Double Taxation Convention" between the German Federal Republic and Canada.

BOX 3:

File 00081
Dodson, Norman: The file consists of correspondence from Wittenburg University in Springfield, OH regarding a collection of Leo Moser's poems and limericks about mathematics.

File 00082
Miscellaneous: The file consists of an article on Soviet mathematician findings, NYT 1980; correspondence with fellow math professors from across North America.

File 00083
Rottenberg, Reuven R.: The file consists of applications and curriculum vitae of R.R. Rottenber for possible professorship at McGill University; Rottenber comes from Israel.

File 00084
Schroeder, Hilde: The file consists of three copies of "Certificate of Merit awarded to Hilde Schroeder"... signed by fellow faculty members. Schroeder was a long-time secretary for the Department of Mathematics, McGill University.

File 00085
Schulte, Egon: The file consists of publications, letters of recommendations, curriculum vitae of Dr. Egon Schulte.

File 00086
Schwerdtfeger, Hans: The file consists of correspondence of Hans and Hanna Schwerdtfeger; photocopies of mathematical book reviews (written in German) from the early 1950's; obituary pamphlets of Dr. Schwerdtfeger; the dates for this file indicate 1951-1994, though the bulk of the information runs from 1971-1994.

File 00087
Lang, Serge: The file consists of one audiocassette called "S. Lang: KPFA"; as well, copies of articles written by Lang for the New York Review of Books and other publications; various correspondence from publishers and colleagues. Lang is also a mathematician who has written many books within the field.

File 00088
Dirac, Gabriel Andrew: The file consists of correspondence, letters of recommendations; as well, many letters concerning Dirac's Visa for working in Canada; obituary notices of Dirac and condolence letters on behalf of colleagues of Dr. Moser's. Incoming and outgoing mail; correspondence originates in London (Cambridge), East Germany, Winnipeg, and Denmark. An attempt has been made to sort items in chronological order.

File 00089
Goodman, Jacob: The file consists of one letter concerning Jacob Goodman for suitability of "Distinguished Professor".

File 00090
Magic Cubes: The file consists of one pamphlet on various "magic cubes", similar to the Rubik's Cube.

File 00091
Coxeter, H.S.M.: Note: there is an entire binder on Coxeter; this single file contains 2 duplicate pamphlets called "ICM: a pictorial record" Vancouver 1974—photos of Coxeter can be found within; as well, an obituary notice of Donald Coxeter (Globe and Mail, April 12, 2003); publication: "Some Applications of Trilinear Coordinates" by H.S.M. Coxeter, one photo (printed from computer) of Coxeter and (great) grandson? and letters of correspondence regarding Coxeter's death.

File 00092
Coxeter, H.S.M.: The file consists of a speech from Coxeter's 80th birthday (1987) and old notes on Zonohedra, etc. written by Coxeter (1950's).

File 00093
Science'84: The file consists of the original and six reprints of the *Science'84* profile on Paul Erdös.

File 00094
Atlantic Monthly: The file consists of a November 1987 article from *The Atlantic Monthly*. Portrait of Paul Erdös which contains (humorous) comments on the article.

File 00095
Erdös, Paul: The file consists of two copies of an article called "Paul Erdös: Portrait of our new Academician" by Marta Sved ; circa 1986-1987.

File 00096
Erdös, Paul and Pach, János: The file consists of joint correspondence written to Moser. Letter originated in Budapest.

File 00097
Malcolm, Major John MacLaren: The file consists of original and copies of obituary notice of Major John MacLaren Malcolm, August 28, 1988. As well, one letter to Moser from Malcolm dated January 21, 1978. Signed "Jean-M".

File 00098
Mangeron, D.: The file consists of one letter from Prof. D. Mangeron, Romania.

File 00099
Makkai, Michael: The file consists of a portfolio of Michael Makkai, from the Université de Montréal. Includes a CV and publications.

File 00100
Math Mag: Polya Issue: The file consists of math problems provided by Moser to *Math Magazine* commemorating the 100th birthday of George Polya.

File 00101
Mathai, A.M.: The file consists of two copies of "An Interesting Sequence" by A.M. Mathai, Department of Mathematics, McGill University.

File 00102
Moser, William: *McGill Reporter*, May 29, 1998: The file consists of an announcement of William Moser's appointment as Emeritus Professor of Mathematics and Statistics (p.11); Reprint of article from Canadian Mathematical Society Notes [GMD] = NOTES de la SMC, Oct. 2003— Professor Moser received Distinguished Service Award 2003.

File 00103
Meir, Amram: The file consists of two math articles with problems/solutions from scholarly journals. A birthday poem to Meir from Moser ; various correspondences.

File 00104
Melzack, Ronald: The file consists of an article from *Scientific American*, April 1992, written by Ronald Melzack.

File 00105
Poulin-Mignault, Hélène: The file consists of a letter written in support of Professor Poulin-Mignault for nomination of Prize for Excellence in Teaching award at McGill University.

File 00106
Milner, Eric: The file consists of a birth announcement of "Robert Eric James Milner",son of Eric & Elizabeth Milner, and personal letters from Milner to Beryl and William Moser – early 1980's.

File 00107
Association for Retarded Citizens: The file consists of two letters of appreciation to Professor and Mrs. Moser on their kindness extended to the Association for Retarded Citizens (Utica, NY).

File 00108
Moon, John: The file consists of one personal letter from Mr. Moon where he reminisces about a former colleague of his and Moser's.

File 00109
Mordell, L.J.: The file consists of information on L.J. Mordell including his obituary notice, an article written by him and various correspondences.

File 00110
Scott, Paul J.: The file consists of a portfolio of Paul J. Scott including a CV, mathematics article, correspondence, and a memo regarding Associate Membership in the Department of Mathematics and Statistics at McGill University.

File 00111
Seshadri, V.: The file consists of a book review of *The Inverse Gaussian Distribution: A Case Study in Exponential Families* by V. Seshadri.

File 00112
Shevelyov, V.S.: The file consists of journal articles written by V.S. Shevelyov (in the Ukranian language).

File 00113
Shklov family: The file consists of personal correspondence from the Shklov family (Norm, Ann and Sarah) ; includes Hannukah and New Year's greeting cards.

File 00114
Simha, R.R.: The file consists of personal correspondence from R.R. Simha of Bombay, India.

File 00115
Singmaster, David: The file consists of correspondence from David Singmaster (London, England) that includes a thank you letter to Dr. Moser for his referral letter, an article written by Singmaster called "The Number of Ordererd Partitions of a Set" and additional articles on mathematical problems and solutions.

File 00116
Sloane, Neil: The file consists of correspondence from Neil Sloane, a math colleague employed by Bell Laboratories in Murray Hill, N.J.

File 00117
Smith, Cedric and Piri: The file consists of personal correspondence from Cedric and Piri Smith of London, England; includes anecdotes, well wishes and greetings.

File 00118
Stepavk, Vladimir: The file consists of a letter and Christmas greetings, 1969.

File 00119
Stoyanov, Jordan: The file consists of personal and professional correspondence from Jordan Stoyanov of [Bulgaria].

File 00120
Street, Anne Penfold: The file consists of professional correspondence of Anne Penfold Street (St. Lucia, Queensland, Australia) including a copy of a Canadian working Visa, in order for her to spend a sabbatical at McGill University; curriculum vitae included.

File 00121
Sigma XI: The file consists of a subscription renewal form for annual dues to "Sigma XI, the Scientific Research Society".

File 00122
Soifer, Alexander: The file consists of one letter from Alexander "Sasha" Soifer of Colorado Springs, CO; letter refers to publications written by Dr. Moser.

File 00123
Szekeres, George and Esther: The file consists of personal correspondence including one Christmas card [no date].

File 00124
Szemeredi family: The file consists of a New Year's greeting card, December 1984.

File 00125
Thomas, Susan and Alf: The file consists of personal correspondence of Alfred and Susan (Coxeter) Thomas including a greeting card and photo of Sierra [Thomas].

File 00126
Thyagaraj, T.K.: The file consists of an email dated June 5, 1995 from T.K.Thyagaraj of Bangalore, India—includes a curriculum vitae for possible Research Position under the tutelage of Dr. Moser.

File 00127
Tits, J.: The file consists of a thank you note from J. Tits of France.

File 00128
Tobin, Sean and Lois: The file consists of personal correspondence and greeting cards from Sean and Lois Tobin [California, England and Galway, Ireland].

File 00129
Tobin: The file consists of mathematical articles by Arthur Michael Tobin.

File 00130
Torchinsky, Benjamin: The file consists of correspondence from and regarding Benjamin B. Torchinsky; personal and professional in nature.

File 00131
Turan, Paul: The file consists of correspondence of Paul Turan of Budapest; letters are personal and professional in nature. Includes a death notice of Turan.

File 00132
Valiquette, Stéphane: The file consists of correspondence from Stéphane Valiquette, s.j.

File 00133
Vanishing Leprechauns: The file consists of correspondence invoices and catalogues for the purchase of Vanishing Leprechauns produced by the W.A. Elliott Company of Toronto.

File 00134
Vigod family: The file consists of correspondence, news, booklets, and greeting cards on various Vigod family members (1970-1998).

File 00135
Vu, Tuan T.: The file consists of one fax from Tuan T. Vu requesting Dr. Moser to write a referral letter; published article enclosed.

File 00136
Waisman: The file consists of correspondence from [J] Waisman of the University of Haifa, Israel.
Note: The surname may be Vaisman

File 00137
Warner, Bob and Anne: The file consists of personal correspondence in the form of letters and greeting cards from Bob and Anne Warner of College Park, MD.

File 00138
Waterman, Steve: The file consists of booklets, and articles on mathematical problems as well as mathematical figures and drawings.

File 00139
Watson, John: The file consists of personal correspondence and condolence cards from the Watson family, John, Janine and Anik.

File 00140
Webber, Eveline: The file consists of one letter of thank you for Dr. Moser's well wishes.

File 00141
Wetzel, John: The file consists of a portfolio of John E. Wetzel that includes his curriculum vitae and letters of referral.

File 00142
Who's Who: The file consists of a draft of a biographical sketch of Dr. Moser as it is to appear in "Who's Who in America" 1996. Option to make corrections if necessary.

File 00143
Wilker, John: The file consists of correspondence from John Wilker including a postcard and a contact list of Mathematical professors from Universities across Canada.

File 00144
Wiseman, Adele: The file consists of a book review of Adele Wiseman's *The Sacrifice* which appeared in "A Reader's Guide to the Canadian Novel" 1981.

File 00145
Woods, H.D.: The file consists of one thank you letter from H.D. Woods, Professor in the Faculty of Arts and Science, McGill University.

File 00146
Wyman, Max: The file consists of a portfolio of Max Wyman, mathematician and university administrator for the University of Alberta. Includes his obituary notice and correspondence spanning many years.

File 00147
Yaffe, Leo: The file consists of material on Leo Yaffe, including an obituary notice, correspondence and a "certificate" declaring the dedication of the "Leo Yaffe Billiards Room" (created by Dr. Moser).

File 00148
Yakir, Arieh: The file consists of letters of referrals, curriculum vitas (3 copies), correspondence, copies of articles on "inclusion matrices" and an article from *The Atlantic Monthly* called "The Man who loves only Numbers" (about Paul Erdös).

File 00149
Yakir, Arieh (#2): One small file on Yakir that includes a rejection letter from the University of Calgary (closed?)

File 00150
Younis, Samer: The file consists of personal correspondence from Jerusalem, Israel; includes one photo.

File 00151
Zaks, Joseph: The file consists of correspondence and curriculum vitae of Joseph Zaks of Haifa, Israel.

File 00152
Zassenhaus, Hans: The file consists of a portfolio of Hans Zassenhaus that includes copies of his curriculum vitae, articles and other correspondence.

File 00153
Zipursky, Alvin and Freda: The file consists of personal correspondence from Alvin and Freda Zipursky of Toronto.

File 00154
Zong, Chuanming: The file consists of a portfolio of Chuanming Zong that includes curriculum vitae, some articles and other correspondence.

File 00155
Nechvatal, James: The file consists of one letter from Nechvatal of the University of Cincinnati thanking Dr. Moser for a manuscript of [geometry] equations.

File 00156
Syllogix: The file consists of "Business" section of *The Montreal Gazette* featuring an article on Syllogix corporation, a mathematical-related venture.

File 00157
Torchinsky, Raymond – CLOSED

Accession 05-028
BOX 4:

File 00161
Asper, Izzy: The file consists of *Montreal Gazette* editorials and articles concerning CanWest Global (owned by Izzy Asper) and ethical journalism. The Moser's took exception to this practice and wrote letters to their friend, Izzy Asper.

File 00162
Brown, Will: The file consists of one email message which is a McGill Memorandum to various members of the Mathematics department.

File 00163
Burnside Hall: The file consists of one invitation to the opening of Burnside Hall.

File 00164
Conway, John: The file consists of newspaper articles regarding the career of Conway, a biography and other correspondence from a website featuring Conway.

File 00165
Coxeter, H.S.M.: The file consists of a speech given by Prof. Moser at a tribute to Coxeter.

File 00166
Globe & Mail: The file consists of newspaper articles about H.S.M. Coxeter as well as his obituary notice.

File 00167
Coxeter Legacy Conference: The file consists of a program booklet and speeches depicting events at this conference, held at the University of Toronto in 2004.

File 00168 (19 photos)
Erdös, Paul: The file consists of various material including 19 photos. These photos depict many forms of Prof. Moser and Paul Erdös and family, dated 1960's. Other items include newspaper articles, postcards, newsletters, and various correspondence.

File 00169
Gotlieb, Allan: The file consists of a newspaper article from *The Manitoban* which features the Rhodes Scholarship win by Gotlieb.

File 00170
Halperin, Israel: The file consists of information on the FRSC: Fellows of the Royal Society of Canada as lead by Halperin.

File 00171
Jeffery, Ralph: The file consists of a postcard/letter from Jeffery.

File 00172
Klamkin, Murray: The file consists of a letter from Prof. Moser to Klamkin regarding a possible article for refereeing.

File 00173
Komlös, Janos: The file consists of one piece of correspondence regarding various mathematical news, articles, publications, etc.

File 00174
Konhauser, Jon: The file consists of multiple copies of speech given by Prof. Moser at a banquet honouring Konhauser.

File 00175
Lehman, Eugene: The file consists of information regarding the teaching of (gifted?) CEGEP students the importance of mathematics; included a tour at McGill University.

File 00176
Mayerovitch, Henry: The file consists of photocopies of political cartoons from the Westmount Examiner, authored by Mayerovitch.

File 00177
McNamee, John: The file consists of correspondence regarding mathematics.

File 00178
Melamed, Sam: The file consists of remarks by Prof. Moser given at the retirement party for Melamed.

File 00179
Moser, David: The file consists of one article about David Moser, the publisher of many small Jewish newspapers across Canada.

File 00180
Moser, Leo: The file consists of articles by and about Leo Moser, as well as correspondence from fellow mathematicians offering condolences to Prof. Moser after the death of Leo Moser.

File 00181
Melzack, Ron: The file consists of once mock "certificate" honouring Melzack from the entire Moser family.

File 00182
Pentaplex: The file consists of correspondence from Pentaplex, an English company that creates puzzles and games. Faxes included suggest that Prof. Moser ordered some puzzles from this company.

File 00183
Mathematical Association of America: The file consists of correspondence regarding the "minicourse" as presented and organized by Prof. Moser.

File 00184
Rooney, P.G.: The file consists of a request by Rooney to Prof. Moser to create a biography for input into the Canadian Mathematical Society's special publication.

File 00185
Moser, Beryl and William: The file consists of a speech given at the 40th wedding anniversary of Beryl and William Moser; as well, there is an original song written by Beryl Moser based on a Scottish trip she and her husband took with friends.

File 00186
Fibonacci Quarterly: The file consists of a request from the *Fibonacci Quarterly* for Prof. Moser to referee (anonymously) a mathematical article.

File 00187
Mount Holyoke College: The file consists of remarks by Prof. Moser at the Conference on Discrete and Computational Geometry held at Mount Holyoke College.

File 00188
Canadian Mathematical Society: The file consists of written biographies of Prof. Moser, Nathan Saul Mendelsohn, and George Francis Denton Duff, all of whom served as Presidents of the Canadian Mathematical Society.

File 00189
McGill Mathematics Department: The file consists of a minutes taken by Prof. Moser at a mathematics departmental meeting.

File 00190
The Daily News: The file consists of a newsletter created by Prof. Moser's children on his 70th birthday (along with his twin brother, Frank).

File 00191
Canadian Broadcasting Corporation: The file consists of correspondence written by the Moser's concerning the change of broadcasting frequency of the French-English radio station in Montreal. The proposal sends the station from FM to AM band.

File 00192
McGill University Convocation: The file consists of a Spring 1998 McGill University Convocation programme at which Prof. Moser was awarded Professor Emeritus.

File 00193
Newborn, Monty: The file consists of various newspaper articles regarding Newborn's movement to establish computer chess as the way of playing chess. Includes a book review of *Kasparov versus Deep Blue: Computer chess comes of age*. Also includes a Japanese translation of one of his articles. There is some correspondence between Newborn and the Moser's includes in this file.

File 00194
Pearlman, Rose: The file consists of eulogies surrounding the death of Pearlman, mother of Beryl Moser, as well as an article regarding the Manitoba Archives (appears to be unrelated to Rose Pearlman).

File 00195
"Proof": The file consists of a play review for "Proof" which focuses on a family immersed in the field of mathematics.

File 00196
Iyengar, Ramanujan: The file consists of a book review for *The Man Who Knew Infinity: a life of the genius Ramanujan* by Robert Kanigel.

File 00197
Schwerdtfeger, Hans: The file consists of an obituary of Hans Schwerdtfeger in the form of a "resolution on the death of Professor Hans Schwerdtfeger".

File 00198
Moser, William: The file consists of a course evaluation, a letter of offer from the University of Calgary, and other professional correspondence.

File 00199
Holocaust artifacts (article): The file consists of a *Globe and Mail* article discussing the importance of keeping Holocaust artifacts in the country, rather than heading to a museum in the United States.

File 00200
Yaffe, Leo: The file consists of a copy of William Moser's remarks at the funeral for Yaffe.

File 00201
Siminovits, Miklos: The file consists of an email from Siminovits to Moser regarding mathematics. It appears to be a continuance of an earlier piece of correspondence.

File 00202
Tuerberg, Helge: The file consists of a letter for Tuerberg requesting Prof. Moser send her a reprint of a mathematical article.

File 00203
Seligson, Lou: The file consists of a biographical article and a sketched picture of Lou Seligson.

File 00204
Research Grants Office: The file consists of correspondence and Prof. Moser regarding sabbatical leaves and research grants offered to him through McGill University.

File 00205
Quebec Association of Mathematics Teachers: The file consists of a request and subsequent schedule for Prof. Moser to speak at the Spring Conference at Loyola High School in 1994.

File 00206
Rogers, Douglas: The file consists of various forms of correspondence between Rogers and Prof. Moser regarding fellow mathematicians and their publications.

File 00207
Barbeau, Ed: The file consists of a greeting card, information on the CMS award to Barbeau and various correspondence.

File 00208
Minneapolis Minicourse Evaluations: The file consists of evaluation results from a mini-course taught by Janos Pach and William Moser.

File 00209
High School Math Program: The file consists of correspondence between the mathematical department and university administration regarding the logistics of inviting high school students to visit McGill University's mathematics department.

File 00210
McGill Encounters: The file consists of the information and schedule for McGill Encounters, a summer program for senior high school students.

File 00211
Symposia Conferences and Meetings Seminars: The file consists of a listing of *SCAMS*, Symposia Conferences and Meetings Seminars from around the world; dates included.

File 00212
Hansen, Sten: The file consists of an email regarding a new scholarly paper written by Hansen; Dr. Moser is offered a copy.

File 00213
International Mathematics Tournament of the Towns: The file consists of correspondence and a course description for "Vectors, Matrices and Analytic Geometry".

File 00214
Toronto Parking Tag Operations: The file consists of correspondence between Prof. Moser and parking authorities in Toronto, regarding a "wrongful" ticket.

File 00215
Gander, Martin: The file consists of email correspondence between the two mathematicians; Prof. Moser offers advice to Gander on publishing reviews of articles.

File 00216
Martini, Horst: The file consists of correspondence regarding the current state of Professor Moser's math problems, as requested by Martini.

File 00217
Coxeter, Susan: The file consists of various correspondence from Susan Coxeter, including holiday cards and drawings.

File 00218
The Senior Times: The file consists of articles written by Prof. Moser for this publication.

BOX 5:
Accession 05-047:

File 00219
Albers, Don: The file consists of correspondence of Albers requesting mathematical problems from Prof. Moser to (possibly) be published in an upcoming book.

File 00220
Canadian Mathematical Bulletin: The file consists of mathematical problems as suggestions to include in the CMB. Many of them did not get used, according to Prof. Moser's notations.

File 00221
Canadian Who's Who: The file consists of more updates to Professor Moser's biographical entry in this famous publication.

File 00222
Coxeter, H.S.M.: The file consists of correspondence between Coxeter and John Conway; copies of publications such as the *New Zealand Mathematics Magazine* and *The New Mathematical Intelligencer*

File 00223
National Post: The file consists of multiple copies of an article on H.S.M. Coxeter.

File 00224
This Week (Carleton University): The file consists of a copy of *This Week* containing a mention of H.S.M. Coxeter.

File 00225
Greeting Cards and Letters: The file consists of various greeting cards and letters.

File 00226
William Moser's CV: The file consists of a copy of William Moser's CV (and publications list) from 1997.

File 00227
Erdös, Paul: The file consists of various correspondence by Erdös, including publications, articles, and photos.

File 00228
Geometry Conference: The file consists of correspondence regarding the Geometry Conference as well as a compilation of papers presented at the conference.

File 00229
Goodman-Pollack Festival: The file consists of a schedule concerning the events being presented at the festival.

File 00230
Kuijk-Grünbauer, Willem: The file consists of a personal email from Kuijk-Grunbauer that is meant to catch-up with old friends.

File 00231
Longyear, Judith: The file consists of correspondence from Longyear suggesting math problems that Prof. Moser would be interested in solving.

File 00232
Luft, Erhoural: The file consists of a letter by Luft asking Prof. Moser to remark on a math problem that appeared in an edition of *Generators and Relations for Discrete Groups*.

File 00233
Miscellaneous Correspondence: The file consists of miscellaneous correspondence from such organizations and as the Consulate General of Barbados in Toronto, Stenlov Mathematical Institute, Amherst College, and W.H. Freeman and Company Publishers; there is additional correspondence within the file.

File 00234
Riordan, John: The file consists of letters explaining particular mathematical problems and how to solve them.

File 00235
Graham, R.L.: The file consists of correspondence concerning mathematical problems. Some of the correspondence in this file is addressed to other individuals, but they all relate to mathematical problems. Other individuals: John Moon, Gordon Pall, and John Selfridge.

File 00236
High, Robert G.: The file consists of many letters responding to the solution for the ENIGMA puzzle, a weekly feature of *New Scientist* magazine. ENIGMA puzzles are created by various authors.

File 00237
Poem(s): The file consists of a letter and pages from a book to illustrate a poem that Prof. Moser was searching. The title of the poem is "God and the Sycamore Tree".

File 00238
The Sphinx: The file consists of copies of the booklet *The Sphinx* including one from 1932. Also, there is a printout from a webpage dedicated to *The Sphinx,* which is now an outdated publication.

File 00239
Szekely, Gabor: The file consists of emails concerning mathematical problems and solutions.

File 00240
Yaffe, Leo: The file consists of a copy of the remarks held at the memorial service for Yaffe.

File 00241
Professor Emertius Award: The file consists of information regarding the title of Professor Emeritus being awarded to Prof. Moser.

File 00242
Cox, Elbert: The file consists of an email request for an article about Cox that appeared in the *McGill Newspaper.* A copy of that article is included.

File 00243
Open Math Problems: The file consists of an email containing "open math problems" by various mathematicians.

File 00244
Discrete Geometry: The file consists of a list of problems presented at a conference in Oberwolfach in 1977.

File 00245
Research Problems in Discrete Geometry 1981 (manuscript): The file consists of various draft copies of *Research Problems in Discrete Geometry 1981*. There are some handwritten remarks, whited out sections and highlighted portions of the text, possibly to reflect changes to this addition.

File 00246
Research Problems in Discrete Geometry 1984: The file consists of a rough draft of Part I of the 1984 edition for Moser's popular book.

File 00247
Problems in Discrete Geometry – chapters: The file consists of a few chapters of Moser's popular book, 1977 edition.

File 00248
Publications: The file consists of various publications by Moser, many of which are copies of *Research Problems in Discrete Geometry*.

File 00249
The Montreal Star: The file consists of a commemorative booklet of *The Montreal Star 1869-1969*.

Included in these last two accessions are miscellaneous materials as noted below:

2 Montreal "NON" buttons
Montreal 1976 Olympics: programme, seating tickets
1 poster
1 ribbon advertising "L'Opera de Montreal"
Various editions of Dr. Moser's publication, "Research Problems in Discrete Geometry"; some are in rough/manuscript form. They have been placed in files with descriptions. Usually, they are large items.

Appendix A

This file contains various publications by H.M.S. Coxeter. A bibliography is detailed below:

Coxeter, H.S.M. "Regular and semi-regular polytopes. III." Mathematische Zeitschrift. 200

(1988): 3-45.

Coxeter, H.S.M. "The Problem of Apollonius." American Mathematical Monthly. 75.1 (1968):

5-15.

Coxeter, H.S.M. "Loxodromic sequences of tangent spheres." Aequationes mathematicae. 1.1/2

(1968): 104-121.

Coxeter, H.S.M. "The Lorentz group and the group of homographies." Proceedings of the

International Conference Theory of Groups. (1965): 73-77.

Coxeter, H.S.M. "The Problem of packing a number of equal nonoverlapping circles on a

sphere." Transactions of the New York Academy of Sciences. 24.3 (1962): 320-331.

Coxeter, H.S.M. "Regular compound tessellations of the hyperbolic plane." Proceedings of the

Royal Society. 278 (1964): 147-167.

Coxeter, H.S.M. "The Finite inversive plane with four points on each circle." Studies in Pure

Mathematics. (1971): 39-51.

Coxeter, H.S.M. "The Lehmus inequality." Aequationes mathematicae. 28 (1985): 4-12.

Coxeter, H.S.M. "Arrangements of equal spheres in non-euclidean spaces." Acta mathematica.

V.3/4 (1954): 263-274.

Coxeter, H.S.M. "Twelve points in PG(5,3) with 95040 self-transformations." Proceeding of the

Royal Society, A. 247 (1958): 279-293. (2 copies)

Coxeter, H.S.M. "Affinely regular polygons." <u>Abhandlungen aus dem mathematischen seminar der universitat Hamburg</u>. 34.1/2 (1969): 38-58.

Coxeter, H.S.M. "Kepler and mathematics." <u>Vistas in astronomy</u>. 18 (1975): 661-670.

Coxeter, H.S.M. "Cayley diagrams and regular complex polygons." <u>A Survey of Combinatorial Theory</u>. (1973): 85-93.

Coxeter, H.S.M. "A Geometrical background for De Sitter's world." <u>American Mathematical Monthly</u>. L.4 (1943): 217-228.

Coxeter, H.S.M, Du Val, P., Flather, H.T. and Petrie, J.F. "The Fifty-Nine Icosahedra." <u>University of Toronto Studies</u>. 6 (1938): 3-29.

"Donald Coxeter celebrates ninetieth birthday." <u>Mathematics</u>. Department of Mathematics, University of Toronto. (1997).

Coxeter, H.S.M. "The Classification of zonohedra by means of projective diagrams." <u>Journal of Mathématiques</u>. 19 (1962): 137-156.

Coxeter, H.S.M. "Papers and books reviewed in Zentralblatt [1930-39] and Mathematical Reviews [1940-77]." 1-9.

Coxeter, H.S.M. "The Non-euclidean symmetry of Escher's picture *circle limit iii*." <u>Leonardo</u>. 12 (1979): 19-25.

Coxeter, H.S.M. "On Frucht's generalized dihedral group." 1-5. Photocopy only.

Coxeter, H.S.M. "A packing of 840 balls of radius 9° 0' 19" on the 3-sphere." <u>Colloquia Mathematica Societatis János Bolyai</u>. 48 (1985): 127-137.

Coxeter, H.S.M. "Star polytopes and the Schläfli function $f(x, \beta, y)$." <u>Elemente der Mathematik</u>. 44.2 (1989): 26-36.

Coxeter, H.S.M. "Regular honeycombs in elliptic space." <u>Proceedings of the London Mathematical Society</u>. 3.4 (1954): 471-501.

Coxeter, H.S.M. "Extreme forms." <u>Canadian Journal of Mathematics</u>. 3.4 (1951): 391-441.

Coxeter, H.S.M. "World-structure and non-euclidean honeycombs." <u>Proceedings of the Royal Society</u>. 201 (1950): 417-437.

Coxeter, H.S.M. "Regular skew polyhedra in three and four dimensions, and their topological analogues." <u>Proceedings of the London Mathematical Society</u>. 43.2 (1936): 33-62.

Coxeter, H.S.M. and Shephard, G.C. "Some regular maps and their polyhedral realizations." <u>Series in Discrete Mathematics and Theoretical Computer Science</u>. 4 (1991): 157-174.

Coxeter, H.S.M. "Cyclotomic integers, nondiscrete tessellations, and quasicrystals." <u>Indagationes Mathematicae</u>. 4.1 (1993): 27-38.

Coxeter, H.S.M. "On R.M. Foster's regular maps with large faces." <u>Proceedings of Symposia in Pure Mathematics</u>. 34 (1979): 117-128. (2 copies)

Adjan, S.I. "On the simplicity of periodic products of groups." <u>Soviet Mathematics</u>. 19.4 (1978): 910-913.

Coxeter, H.S.M. "Trisecting and orthoscheme." <u>Computers Mathematics Applications</u>. 17.1-3 (1989): 59-71.

Coxeter, H.S.M. "Escher's lizard." <u>Topologie Structurale</u>. 15: 23-30.

Accession 05-134
MG 4238

Box 6:

File 00250
Elizabeth Behrens, Dawson's first librarian: The file consists of private and professional correspondences between Beryl Moser and Elizabeth Behrens: holiday cards and letters, some of which relate to contemporary issues concerning the Dawson College Library.

File 00251
Brock University: This file includes an evaluation of the Brock University Mathematics Department by B. Headly, as well as a history of the department, and registration figures. It also includes correspondence between M.S. Gibson, Dean of Mathematics and Science and Dr. W. Moser regarding various professional matters.

File 00252
Calgary Offers – 1965-66 – McGill Promotion '66: This file includes correspondence between Dr. W. Moser and various persons of influence employed at the University of Alberta, regarding the position of Professor and Chairman of the Department of Mathematics at the University of Alberta, Calgary. In addition, this file contains personal hand-written notes from Dr. W. Moser.

File 00253
Correspondence – Topics in Geometry – Text: This file consists of correspondence between Dr. W. Moser, Walter E. Zablocki and A.L. Dulmage regarding the publication of a book with the proposed title Topics in Mathematics. Additional correspondence from various publishing houses are also included.

File 00254
Coxeter, H.S.M.: This file consists of a document commemorating an event whereupon Geometer H.S.M. Coxeter was offered an honorary doctorate in the Department of Mathematics and Statistics. The event is dated November 10, 1984.

File 00255
Coxeter – Moser: This file consists of correspondence between H.S.M. Coxeter and Dr. W. Moser regarding a proposed symposium. It also includes calculations made by Moser.

File 00256
Dawson College Library: This file includes Mrs. B. Moser's correspondence from various sources, both profession and personal, as well as a poster and an undated pamphlet for the Dawson College Library. In addition is as a map of public transportation for the North East London Polytechnic, and an empty stamp booklet dated for 1994 from the T. Eaton Company.

File 00257
Discrete Geometry Conference – 1982: This file contains various pamphlets for the Discrete Geometry and Convexity Days Conference held on April 2-3, 1982, at which Dr. W. Moser spoke on "Some Problems in Discrete Geometry." It also includes correspondence between academic parties and Dr. W. Moser regarding geometry.

File 00258
Employment Offers: This file contains correspondence regarding Dr. W. Moser's resignation from the University of Alberta, Manitoba in 1964. It also includes letters of recommendation, and notes written by Moser.

File 00259
Expo Coin Game: This file consists of documents regarding a trial which took place in Montreal in 1967. Dr. W. Moser was called to give material evidence on June 13, 1967 regarding a criminal case where an Expo Coin Game was charged with gambling. It includes an undated report by Moser and M. Abramson regarding dime-tossing games as well as notes written by Moser on the case. Newspaper clippings from the trial from The Gazette, and the Montreal Star (dated Tuesday, June 20, 1967) are included.

File 00260
Frank, Heinz: This file consists of a memorial address given by Karl W. Maurer on October 10, 1967, in honour of Heinz Georg Frank.

File 00261
Hill, Anthony: This file consists of an undated holiday card from Anthony Hill, a British artist, of which four paintings hang in the Tate Modern Gallery, in London England.

File 00262
Letters – London – 1971-72: This file includes correspondence for the Mosers such as letters and holiday cards.

File 00263
Origins of the McGill Math. Library: This file includes an M.L.S. II paper written by Beryl R. Moser in April 1969, and notes written by Dr. W. Moser. It also includes memorandums and other notes from and regarding the McGill University Department of Mathematics.

File 00264
Mathematicians: This file includes personal and professional correspondence to the Mosers, as well as a College of London Department of Mathematics staff address list dated for 1971-1972, and a menu card for the London Math Society, dated November 18, 1971.

File 00265
Moser: This file contains some of the professional and personal correspondence of Dr. W. Moser, part of an article on H.SM. Coxeter, interviewed in 1990, and a Report on the First National Workshop on Public Awareness of Science, Ottawa, March 4-5, 1988.

File 00266
Moser, William: This file consists of some of the professional correspondence of Dr. W. Moser and research problems, as well as a thank you note from a student.

File 00267
Moser, William – 1985 This file consists of professional correspondence of Dr. W. Moser regarding the St-James Literary Society's 80th Celebration.

File 00268
Moser, William – Sabbatical Correspondence: This file consists correspondence regarding a sabbatical taken by Dr. W. Moser during the 1985-1986 academic year.

File 00269
Newborn, Monty – McGill – Computer Science: This file consists of personal correspondence of the Mosers.

File 00270
Moser – Geser Debate – 1963: This file consists of a debate held in 1963 between Professor H. Gesser and Professor W. Moser regarding the following topic: "that an education in mathematics is a better preparation for sex activity than an education in chemistry." This debate took place before an audience of two hundred undergraduate students at the University of Manitoba.

File 00271
Oseasohm, Robert + Celia: This file includes correspondence, professional as well as personal for Dr. W. Moser and Beryl Moser. Included are holiday cards for various occasions.

File 00272
Pach, Janos: This file consists of correspondence from Janos Pach, author of (RPDG) Research Problems in Discrete Geometry.

File 00273
RPDG: This file includes correspondence between Mr. Pach and Moser, who cooperated on a project regarding Research Problems in Discrete Geometry, as well as a bibliography on the subject.

File 00274
Sabbatical – 1971-72: This file includes correspondence for an Honorary Research Fellow from the College of London in 1971, as well as a photocopy of a clipping from The Gazette dated December 16, 1970, when Dr. W. Moser was named one of the one hundred fifty-four winners of the Canada Council Leave Fellowships in humanities and social sciences.

File 00275
Space, Services in London + Paris. Re: Sabbatical – 1978-79: This file includes formal correspondence between various European academic institutions and Dr. W. Moser during his research leave.

File 00276
Sauvé, Léo: This file consists of a proposal from the Committee of Honorary Degrees at the University of Alberta to nominate Mathematician Léo Sauvé for an Honorary Degree. It also includes Mr. Sauvé's curriculum vitae, and a letter written by Dr. W. Moser in this regards.

File 00277
McGill Correspondence – Sabbatical + Research Grant: This file includes documents regarding Dr. W. Moser's approved application for a research leave grant, dated June 22, 1978, as well as official correspondence regarding this matter.

File 00278
Schuster, Sy – Carleton College: This file consists of correspondence between Mr. Schuster and the Mosers.

File 00279
Report by W. Moser of Math. Dept. – Sir George William University – 1970: This file consists of documents regarding an extensive report prepared by Dr. W. Moser for the Sir George William University Mathematical Department. It also includes notes and research material used during its preparation, and copies of the report.

File 00280
U. of Manitoba Correspondence: This file includes official and professional correspondence between academic heads at the University of Manitoba, and Dr. W. Moser.

File 00281
Zipinsky: This file consists of personal correspondence from Zipinsky and the Mosers.
